DIRECTOR’S REPORTS

Budget Report
The monthly Revenue Summary and Expenditure reports was presented to the Board. Also presented was an itemized cash flow report for FY2020 (July 1, 2019 – June 30, 2020). Total amount expended, thus far, for FY2020 is $56,993.52 with $130,946.48 remaining of FY20 budget ($187,940.00).

Fiscal 2018 Legislative Audit Report was presented to the board which contained no findings, but did contain 4 verbal recommendations for the agency to work on. This report was presented to the Legislative Joint Audit Committee in October of 2019 and was approved by the committee. Dr. Moore inquired about the verbal recommendations and the director explained what they were for and that the agency has already started working on making changes to some procedures.

2020 License Renewals
A total of 660 renewals were mailed out on August 30, 2019. Of those, 6 have been returned as not deliverable/unable to forward. As of 12/06/2019, 240 completed renewals have been received and entered.

FOIA Report
A total of 10 Freedom of Information Act requests have been received from October 15, 2019 to December 6, 2019. 25 have been received since the July 1, 2019.

Dr. Courtney inquired if it was normal to have 420 renewals still remaining to be submitted this late in the renewal period. Director stated it was typical.

The Director also informed the Board that the reports and the agency letterhead will look different going forward as the agency has now gone “live” with ADH. ADH will be entering the agency’s expenditure and revenue data into AASIS instead of DFA.

Dr. Moore inquired about the FY18 audit report regarding the concerns audit found, but did not consider them findings at this time. The Director read through each one and explained what it was for and that the agency is working to make the changes for future expenditures.

Dr. Courtney motioned to accept the director’s reports. Motion seconded by Mr. McCoy. Motion passed.
OLD BUSINESS

New Licensee Orientation
Board President asked the board at their October meeting if they would be willing to have orientation four times a year instead of twice a year, so that licenses could be issued more frequently to recent graduates. Dr. Holt also requested to see what the surrounding states are doing regarding this matter. A poll was requested of the neighboring states as to how often they give an orientation or if they have one at all. The poll was provided for review. Dr. Courtney motioned to have four (4) orientations a year. Motion seconded by Dr. Holt. Motion passed. The board went on to discuss when credentials review would be for those four orientations. Dr. Moore asked Dr. Courtney if he would be willing to review the applications and if approved those would go on to orientation. Dr. Courtney agreed to help review applications. Dr. Holt then motioned that the president or his/her designee will review the new licensee applications along with the director and if any applications are questionable then those will go to the full board. Dr. Ungerank seconded the motion. Motion passed.

C.E. Application Review
At the October meeting Dr. Moore discussed several CE applications that didn’t have speakers that were doctors. He thinks the board has been inconsistent with the approval of these courses. He would like to clarify if the board is denying the courses because the speakers are not physicians or if the course work is not at the physician level. Also, a letter was received from Paulette Kaelin with the Arkansas Chiropractic Society informing the Board that she believes that some seminars being conducted in Arkansas that were approved by the Board are not properly monitored. Dr. Ungerank motioned that the Board require the Continuing Education sponsor to have an attendance monitor that they furnish, or their courses will not be approved in Arkansas. Motion seconded by Dr. Courtney. Motion passed.

The consensus of the Board was that all physician level courses should be taught by a physician and nonphysician level courses can be taught by someone who is an expert in that field.

NEW BUSINESS

Update - Deadline for Procurer documents
The January 1, 2020 deadline is fast approaching regarding the procurer documents requested by the Board. Board counsel reminded the board of this, however, he posed a question to the Board whether or not the Complaint Committee would be empowered to investigate and potentially request a notice of hearing for those licensees who do not respond to the valid request made by the board. So, how important is this to the Board, is this something the Board is interested in pursuing at this time? Initially the January 1 deadline is something the Board needs to consider at this time. Dr. Courtney discussed the annual renewal of procurers and that the licensees could provide all the data requested with the annual registration. As a follow up to Dr. Courtney’s discussion, the Director informed the board that the annual renewal rule for procurers has not been promulgated therefore they could not enforce it at this time as it is pending approval from the Governor along will all other proposed rules. Again, counsel reiterated the fact that after the deadline has passed and some licensees have not responded to the board’s request, will the board then notice those licensees for a hearing. It is up to the Board to make that determination. A concern in the community which was brought to counsel’s attention is that some of the documents requested by the board may possibly be a violation of PHI or give an unfair competitive advantage to competitors if the documents were requested through FOIA. After additional discussion regarding this item, Dr. Courtney motioned that the Board currently require 1/1/20 the name of all procurers registered under any chiropractic physician in Arkansas along with the procurer’s driver’s license and all phone numbers, and an affidavit to be signed and notarized by the Chiropractic Physician which states that these are the procurers they have under their domain with
current address, phone numbers, and a copy of the procurers driver’s license. Dr. Ungerank seconded. Motion passed

C.H.I.R.O Proclamation
Tabled until January due to guest not being able to attend.

Letter from Steven Bennett, DC
Dr. Bennett was given the floor to present his concerns about Blue Cross. In his letter that he provided to the Board states, “My concern is that BCBS has continued to perpetuate a narrative that extremity x-rays are not within the scope of practice of chiropractic physicians within the State of Arkansas for several years. Scope of practice should not be determined by BCBS, but rather legally through the Attorney General’s Office based upon our true scope of practice and not that perceived by BCBS.” This issue was also brought before the board in 2016, however, the board did not take action as they wanted to make sure the licensee had gone through their due process and then provide to the board denial letters from BCBS. Dr. Bennett’s second concern was regarding the fact that an RN is determining guidelines for chiropractic scope of practice and feels he is practicing outside their scope of practice. Dr. Bennett requested that the Board take some form of action regarding this issue. Dr. Courtney motioned that extremity treatment and x-ray, all imaging of extremities, is within chiropractic scope. Motion seconded by Dr. Holt. Motion passed. Dr. Courtney then motioned that the board send a letter to BCBS and Insurance Commissioner indicating what the board’s position is regarding extremity treatment and x-ray, all imaging of extremities, being within chiropractic scope. Dr. Holt seconded the motion. Motion passed. Dr. Hays motioned that the board send the letter to BCBS and the Insurance Commissioner. Motion seconded by Dr. Courtney. Motion passed.

Dr. Courtney suggested that Dr. Bennett could file a complaint with the nursing board regarding the RN practicing outside their scope of practice.
