

NOTICE TO APPLICANTS – CHANGES TO EXAMS:

New Rules that took effect September 27 increased the fee for some competency exams and those submitting applications for or that are retaking an exam at the April 2010 exam administration should take note. The increases are in response to similar increases by NCEES.

FEES WHICH HAVE INCREASED ARE AS FOLLOWS:

FUNDAMENTALS OF SURVEYING – non-students and those retaking increased from \$80 to \$110

PRINCIPLES & PRACTICE OF ENGINEERING (including Structures I) – increased from \$150 to \$180

PRINCIPLES & PRACTICE OF SURVEYING – increased from \$150 to \$180

STRUCTURAL II – increased from \$500 to \$750

Fees for students taking either the Fundamentals of Surveying or Fundamentals of Engineering examinations for the first time remain at \$30.

The Structures I or II exams will be given for the last time with the October 2010 administration and will be replaced with a single two-day exam beginning April 2011.

These changes are reflected on the fee schedule on the website and you can contact the Board at (501) 682-2824 or at [StephenW.Haralson.arkansas.gov](mailto:StephenW.Haralson.arkansas.gov) if you have questions or comments.
